DESIGN

Free design set up. Our team of designers will work their magic to bring your design to real life. No color or logos limitation!

PRODUCTION

Very low minimum quantity required.
We work with small and big teams.
We adapt to your needs.
Fast delivery in just 3 weeks.

QUALITY PROCESS

Our main goal is to offer high quality products to those who want to enjoy the latest technological advances and the best design.

OUTPUT

We work with the best materials to offer a first quality product. Our swimsuits are resistant with vivid, attractive and durable colours.

DELIVERY

We ship internationally. We take your designs from design confirmation to your door delivery. Our production process is fast and efficient.

Ref. 61225

STREHCORDZ KNEE ELASTIC

- S-1225 ONE SIZE
- Used in water for control of knee position during breaststroke kick.
- Also assists in adduction to facilitate recovery of groin injuries.

Ref. 60122

STREHCORDZ ANKLE ELASTIC

- S-1225 ONE SIZE
- Used in water for control of ankle position during breaststroke kick.
- Also assists in adduction to facilitate recovery of groin injuries.
- Used in the water with pull buoys for pull sets.

Ref. 60001

STREHCORDZ WITH HANDLES S-100:12-01-05-08-06

- The original dry-land training device used for curls, tricep extensions, flies and lat pulls. Includes two 4-foot (1.2m) dedicated tubes with handles and combination mounting loop.

Ref. 60003

STREHCORDZ WITH HANDLES S-101:12-01-05-08-06

- The unique paddle design emulates a swimming pull. Includes two 4-foot (1.2m) dedicated tubes with paddles and combination mounting loop.

Ref. 60005

STREHCORDZ SHORT BELT S-119:08-09-05

- Shorter version of Longbelt for smaller spaces. 2" (5cm) waist belt and buckle attached to a four foot length of heavy tubing used for push-off and stationary swimming in small pools.

Ref. 60006

STREHCORDZ LONG BELT SIDER S-11875:12-01-05-08

- For resisted swimout and speed assisted swimback. 2" (5cm) waist belt, padded for comfort, and sliding attachment connected to a 20 foot length of latex tubing. The sliding attachment moves freely around the belt for unrestricted movement. Running the entire length of the tubing is SaefyCord which adds safety and security in the event of breakage. Can be used in both a 25 yard or a 25 meter pool.

Ref. 60103

STREHCORDZ MODULAR SET S-103:12-01-05-08-06

- A complete modular set for dry-land training. This set includes interchangeable handles, paddles, legs straps and a pair of 4-foot (1.2m) modular tubing with mounting straps. Comes in a convenient carry bag.

Ref. 60102

STREHCORDZ WITH LEG STRAPS S-102:12-01-05-08-06

- A comfortable 2" (5cm) wide strap provides resistance for leg adduction, abduction, leg extension and leg curls. Includes two 4-foot (1.2m) dedicated tubes with leg straps and combination mounting loop. For both dry-land and in-water use.

Ref. 60108

BREASTSTROKE MACHINE S-108:12-01-05-08-06

- A unique device used for both outward inward sweep and inward sweep in breast stroke pull.

Ref. 60120

STREHCORDZ GRUDGE BELT S-120:ONE SIZE

- Two belts connected by a 7-foot (2.1m) length of heavy latex tubing for a swimming tug of war, barge pulls and other exercises. One level of resistance.

USE AND CARE

Below you will find some notes and indications that may be useful for the use of your swimsuits and their maintenance. Following some simple but essential suggestions, you can extend the life of your swimsuit.

Before the use

Never use creams, balsamic oils and sunscreen under the swimsuits. These products contain chemical substances that lead to rapid deterioration of all tissues manufactured with PBT.

After the use

After each use, rinse the swimsuit and lay it in a well ventilated environment or wash it immediately. Do not hang clothes in direct sunlight. Never store the wet swimsuit in an unventilated environment (for example, plastic bags, sports bags, suitcases, etc.).

Wash

It is advisable to wash the swimsuits separately from other clothing / accessories to avoid friction. Before washing your swimsuit, turn it inside out (seams on the outside). In this way the fabric and seams will suffer less friction.

The swimsuits can be washed in the washing machine, but always using a washing bag, a delicate cycle and cold water (max. 30 ° C). It is very important not to use bleach or softener. Use only a mild liquid detergent. Do not use soaking, do not twist or rub. To remove excess water from the swimsuit, press gently with your hand. Dry clothes flat, do not tumble dry.

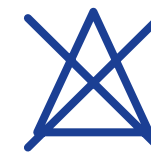

Fabric peeling

The peeling of the tissue does not appear on its own, it is always the result of friction and abrasion on rough surfaces. For this reason we suggest you not sit on the edge of the pool or on the floor, because rough surfaces wear down the fabric quickly.

Do not wash the swimsuits together with other elements that contain textures that inevitably cause the formation of peeling. Remember that peeling is always the result of mechanical actions described above.

WASH BY HAND OR WITH COLD WATER

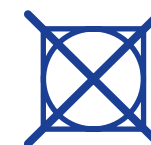

DO NOT USE BLEACH AND SOFTENER

DO NOT IRON

DO NOT DRY CLEAN

DO NOT USE DRYER
